Click on the Home tab in top left

On your next screen click on the black bulletin

Than click on the black bulletin next to your recorder- check mark the boxes of the cameras you wish to view (recommend 4 or less at a time)

Next click on the calendar on the bottom and select your date you wish to view.

Click search- After clicking search your playback will show Make sure to click on the lines with the play button to view all cameras simultaneously.

*Green will be recorded but no events, Yellow lines will be motions or events
