

Replacing the battery in PG9905 Temperature Sensor

CAUTION! Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the manufacturer's instructions.

WARNING! This product contains a coin battery. If it is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

1. Insert a flat edge screwdriver into the slot and push upward to remove the cover.

2. Remove the screw and separate the cover from the base

3. Observe polarity and install battery

Note: After restoring a low battery trouble the system may take up to 5 minutes to clear the trouble.
