m ය<4× 🖪									

(<mark>Device Name</mark>= house, shop, ect. <mark>Input Type</mark>= QR Code, <mark>P2PID</mark>= Foss Tech will give you, Http Port</mark>= 80, <mark>User Name</mark>= The one you created, <mark>Password</mark>= The one you created)

Click on All Devices- Here you will see the recorder you added, make sure the box in the center is green, If it is not green just hoover your mouse over it and it will stat what the issue is example= username or password error or system is offline

Once the system is green you can go to the home screen and Click live View

The screen will look like pictured below, <mark>click the Black triangle next to root to see your device</mark>. Click+hold and drag your device from left to right onto the screen.
